IN-LINE ALUMINIUM WINDOW

THE ALLSTYLE IN-LINE WINDOW REPLICATES THE FLUSH FINISH DESIGN USED IN TOP END TIMBER WINDOWS, WITH THE ADDED ADVANTAGE OF HAVING THE MULLIONS CONCEALED, REDUCING THE SIGHT LINE CONSIDERABLY.

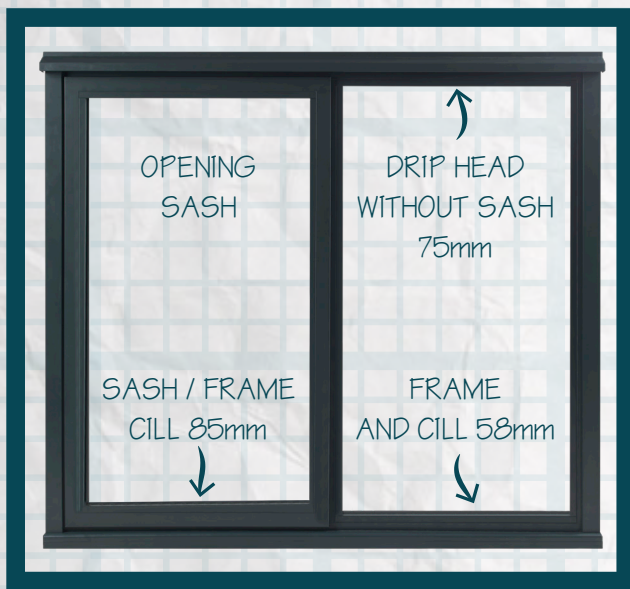

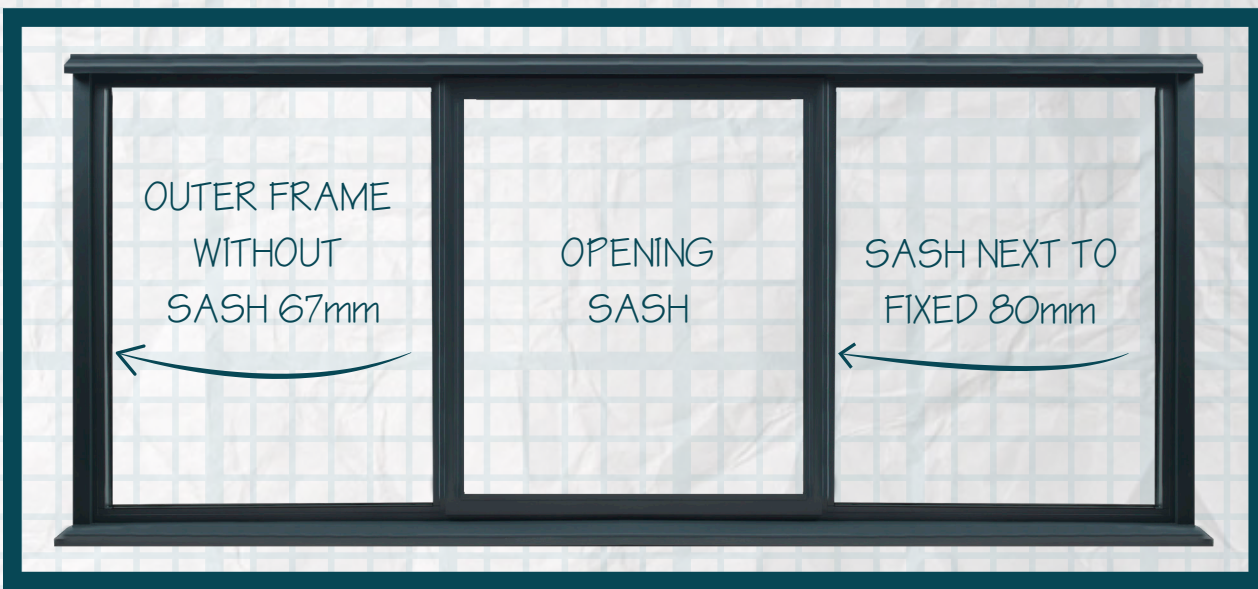

THE PERFECT REPLACEMENT FOR TIMBER WINDOWS

BETTER LOOKING BY DESIGN

THE ALLSTYLE DESIGN WORKS EQUALLY WELL WITHOUT USING EQUAL SIGHT LINES (DUMMY SASHES) BECAUSE THE OUTER FRAME IS IN LINE WITH THE SASH AND WHEN EQUAL GLASS WIDTH IS SPECIFIED THE RESULT IS A SYMMETRICAL WINDOW DESIGN WITH SLIM SIGHT LINES.

ALUMINIUM POWDER COATING IS AVAILABLE IN OVER 200 RAL COLOURS PRODUCING A LOW MAINTENANCE, LONG LASTING, HIGH QUALITY FINISH NOT MATCHED BY ANY OTHER MATERIAL.

THE ALLSTYLE IN-LINE ALUMINIUM WINDOW IS AVAILABLE WITH A 50MM SLIM HEAD OR A 75MM PROJECTING DRIP HEAD WITH CONCEALED VENTILATION, IF REQUIRED, AVOIDING THE NEED FOR UNSIGHTLY EXTERNAL TRICKLE VENT CANOPY HOODS, WHICH NOT ONLY SPOIL THE LOOK OF THE WINDOW BUT DETRACT FROM THE APPEARANCE OF THE PROPERTY.

PATENTED DESIGN FEATURES NOT FOUND IN ANY OTHER ALUMINIUM WINDOW SYSTEM

THE ALLSTYLE ALUMINIUM RANGE INCLUDES PATIO DOORS AND BI-FOLD DOORS.
