Finishing touches...

The Right Hardware Makes ***All*** the Difference

Choosing the right handle can transform the look and feel of a window or door. Hardware is more than a finishing touch — it's what ties design and detail together.

Timberlook offers two carefully curated ranges, so you can find the style that's right for any project.

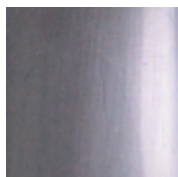

Whichever style you choose, you'll get a handle carefully designed to complement the Timberlook Heritage Flush Sash range and stand the test of time.

STANDARD HANDLE RANGE:

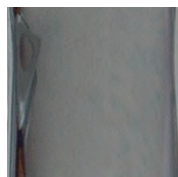

Available Finishes:

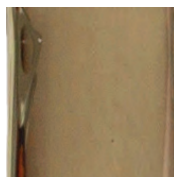

White

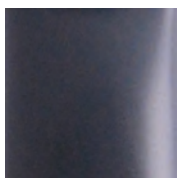

Graphite

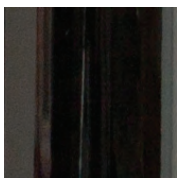

Chrome

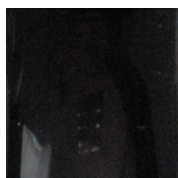

Gold

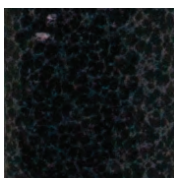

Grey

Bronze

Black

Antique Black

With eight carefully selected finishes, the Standard Handle Range offers a wide range of colours to ensure maximum versatility.

Modern schemes benefit from crisp colours like ***Graphite***, while character homes pair beautifully with traditional tones such as ***Antique Black***.

All finishes are supported by coordinating window and door handles for a consistent look throughout — and as part of our standard offering, they provide a stylish and cost-effective way to complete your Timberlook installation.

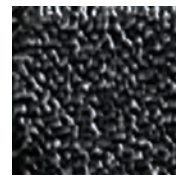

PREMIUM HANDLE RANGE:

Looking for hardware that suits a more characterful home? Our Premium Traditional collection offers two classic window handle styles — ***Monkey Tail*** and ***Pear Drop*** — both chosen for their enduring heritage appeal and refined detailing. Updated for modern living, they feature a smooth key-operated lock with an elegant rosette key, blending period style with everyday practicality.

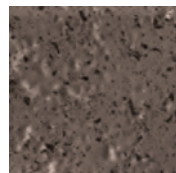

To complete the look, a matching lever-lever heritage door handle is available in the same finishes as both window styles, allowing you to create a fully coordinated, authentic aesthetic across your Timberlook installation.

Available Finishes:

Antique Black

Pewter Patina

*Other finishes available on request

Monkey Tail
Pewter Patina

Pear Drop
Antique Black

Heritage Handle
Antique Black

Stand-out in style:

For a more distinctive look, the Monkey Tail door handle brings real character to any entrance.

Available in Forged Black and Hardex Pewter, it doesn't need to match your window hardware exactly — its handcrafted detail is designed to stand out.

Monkey Tail Forged Black

The Swan Neck handle offers a refined alternative with its smooth, flowing profile.

Finished in the same options as our standard hardware, it creates an easy, coordinated scheme while adding a touch of individuality.

Swan Neck White
